Subject: New requirements in the Fairtrade Textile Standard

Dear Fairtrade partners,

The Standards & Pricing Unit announces the publication of a revised version of the [Fairtrade Textile Standard](#). Following a limited and urgent review of the Standard, including research, public consultation, and decision-taking by the Standards Committee, there are now 2 new requirements included in the Textile Standard:

- **4.2.3 Certification accepted by Green Button for wet processing**, *core, year 0*
- **4.2.4 Informing wet processing supplier**, *core, year 0*

These new requirements are taking effect as of 1 July 2024. They apply in case a factory produces products to be labelled under the German Gruener Knopf/ Green Button.

For more information, please contact the Project Manager Kerstin Cron at k.cron@fairtrade.net

Best regards,

Alina Amador
Head of Standards Unit - Fairtrade International
