EUDR readiness with Fairtrade

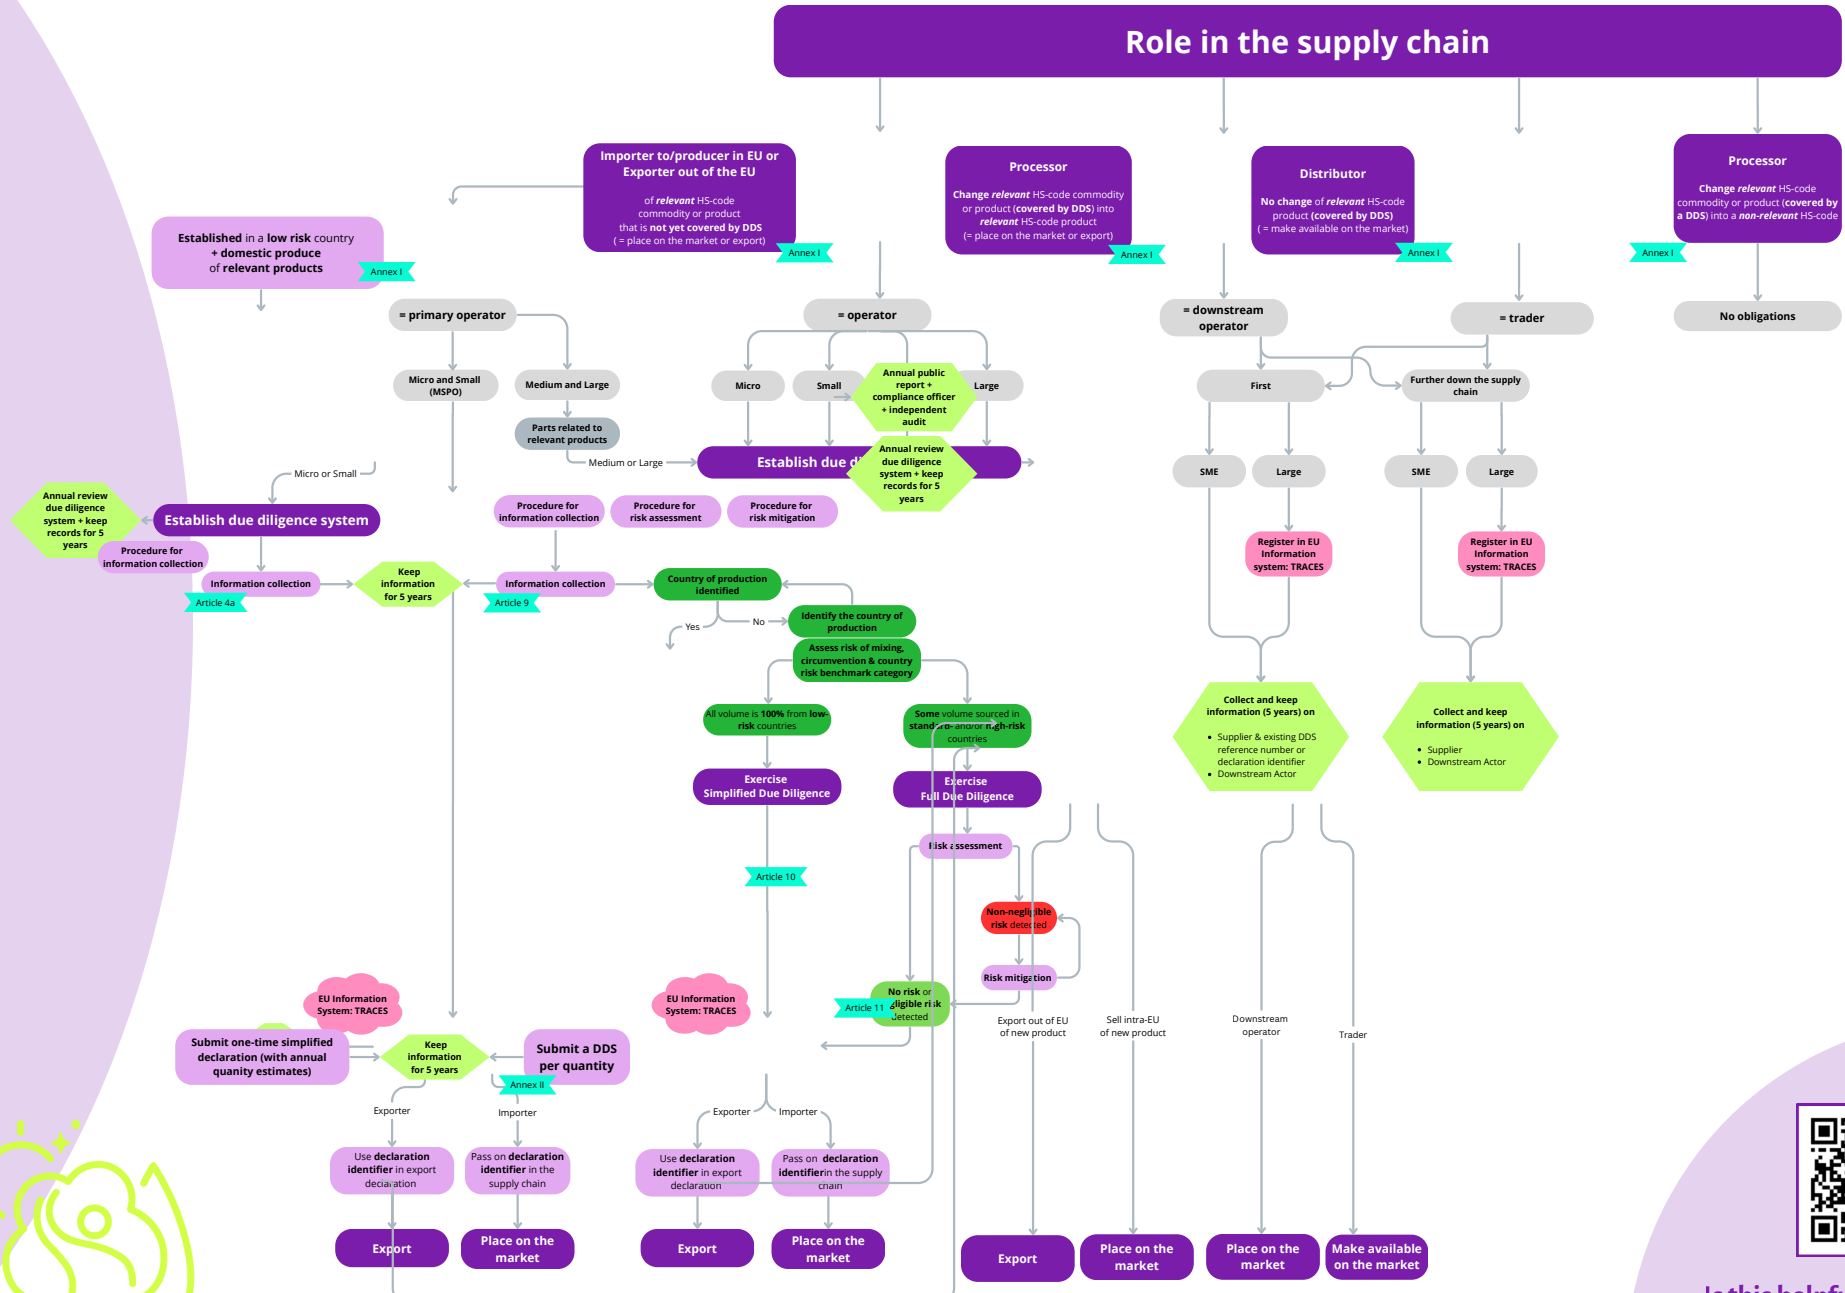

New amended EUDR
Last update: 23 January 2026

This graphic explains the different roles companies can play under the EU Deforestation Regulation (EUDR) and the specific obligations linked to each role. By showing how responsibilities vary across the supply chain, it makes complex regulatory requirements easier to understand at a glance. The graphic helps companies quickly identify their role, understand what is expected of them, and support efficient compliance and risk management under the EUDR.
