Introduction

How to use this Standard

This Fairtrade Standard for Fresh Fruit covers the requirements which are specific to fresh fruit small producers and traders.

Fairtrade fresh fruit producers must comply with both the Fairtrade Standard for Small Producer Organizations and the Fairtrade Standard for Fresh Fruit. For producers this standard complements, and should be read together with, the Fairtrade Standard for Small Producer Organizations.

Fairtrade fresh fruit traders must comply with both the Fairtrade Trader Standard and Fairtrade Standard for Fresh Fruit. For traders this standard complements, and should be read together with, the Fairtrade Trader Standard.

In cases where this standard differs from the Fairtrade Standard for Small Producer Organizations or the Fairtrade Trader Standard on the same topic, the requirements presented in this standard apply.

Product description

This standard covers the purchase and sale of fresh fruit in their primary form. This includes fresh fruit for export and fresh fruit sold for further processing.

Fairtrade fresh fruit are all varieties of fresh fruit for which Fairtrade prices exist.

Citrus fruits belong to the Rutaceae family and include different types of fruits such as oranges, tangerines, mandarines, clementines, satsumas, lemons, limes and grapefruits.

“Soft citrus” refers to citrus fruits grown from the species *Citrus reticulata* Blanco. These fruits include satsumas (*Citrus unshiu* Marcow), clementines (*Citrus clementina* Hort. ex Tan.), common mandarins (*Citrus deliciosa* Ten.) and tangerines (*Citrus tangerine* Hort. ex Tan.), as well as their hybrids.

Wine grapes are the fruit of the *Vitis vinifera* L. vine. For wine grapes, the standard also covers any processed products.

The standard also covers secondary products and their derivatives. The definition of secondary products is included in the [Fairtrade Trader Standard](#). An [explanatory note](#) for secondary products and [a non-exhaustive list of products fitting the secondary products definition](#) is published on the Fairtrade International website.

Price and Fairtrade Premium

Fairtrade Minimum Prices (FMP) and Fairtrade Premium levels for Fairtrade products are published separately to the product standards.

There are no Fairtrade Minimum Prices defined for secondary products and their derivatives. The prices (at CIF=Cost, Insurance and Freight or FOB level) of these products, from any origin, are negotiated between the importer and the exporter. A default Fairtrade Premium of 15% of the negotiated price must be paid in addition.

Structure

The Fairtrade Standard for Fresh Fruit has four chapters: General Requirements, Trade, Production and Business and Development.

In each chapter and section of the standard you will find:

- The **intent** which introduces and describes the objective and defines the scope of application of that chapter;
- The **requirements** which specify the rules that you must adhere to. You will be audited according to these requirements; and
- The **guidance** provided to help you to interpret the requirements. The guidance offers best practices, suggestions and examples of how to comply with the requirement. It also gives you further explanation on the requirement with the rationale and / or intention behind the requirement. You will not be audited against guidance.

Requirements

In this standard you will find one type of requirement:

- **Core requirements** which reflect Fairtrade principles and must be complied with. These are indicated with the term 'Core' found in the column on the left throughout the standard.

Scope

This standard applies to all Fairtrade fresh fruit small producers and all companies that buy and sell Fairtrade fresh fruit. All operators taking ownership of Fairtrade certified products and / or handling the price and Fairtrade Premium are audited and certified.

Different requirements apply to different operators depending on their role in the supply chain. You can find out if a requirement is applicable to you in the column "applies to".

Application

This version of the Fairtrade Standard for Fresh Fruit was published on **1 April 2018** and is applicable from **1 July 2018**. This version supersedes all previous versions and includes new and changed requirements. New requirements are identified in this standard by the word "**NEW**". The following transition periods apply:

- Requirements marked **NEW 2018**: applicable from **1 July 2018**
- Requirements marked **NEW 2019**: applicable from **1 January 2019**

Definitions

Dead freight is an amount a shipper needs to pay, when the shipper does not utilize the space he or she has reserved on a truck or a vessel.

Ex Works means that delivery takes place when the seller places the goods at the disposal of the buyer, at the premises of the seller or at another named place (works, factory, warehouse, etc.) not cleared for export and not loaded on any collecting vehicle.

Free on Board (FOB) means that the seller delivers when the goods pass the ship's rail at the named port of shipment. From that point forward, the buyer has to bear all costs and risks of loss or damage to the goods. Under FOB terms, the seller is required to clear the goods for export.

Fruits for export mean fruits that are exported fresh without being processed in the producing country.

Oranges for juice for processing in consumer countries are defined as oranges for juice that are sold to be exported to a consumer country and then processed into juice in that country.

Oranges for non-frozen concentrate (NFC) and oranges for frozen concentrated orange juice (FCOJ) are defined as oranges for juice that are sold to be processed into NFC or FCOJ in the producing country.

Perennial fruits are fruits that are harvested year-around. Typically, these are bananas, papayas and pineapples.

Producer means any entity that has been certified under the Fairtrade Standard for Small Producer Organizations. **Individual producers** are the members of those organizations.

Retro-certification occurs when a Fairtrade payer buys fresh fruit from a Fairtrade producer or exporter under conventional market conditions (non-Fairtrade) and at a later stage converts it into a Fairtrade product.

Seasonal fruits are harvested only for a certain period of the year. Typically, these are mangoes, oranges and grapes.

Shortfalls in sales refers to a situation when sales are lower than originally ordered as Fairtrade. In the case of Fairtrade transactions, this happens when the importer ordered a certain amount of fruits as Fairtrade and the orders of the clients of the importer decreased.

For a comprehensive list of definitions see the [Fairtrade Trader Standard](#).

Monitoring of changes

Fairtrade International reserves the right to amend Fairtrade Standards in accordance with Fairtrade International's Standard Operating Procedures (http://www.fairtrade.net/setting_the_standards.html). Fairtrade Standard requirements can be added, deleted, or changed. If you are Fairtrade certified, you are required to check the Fairtrade International website regularly for changes to the standards.

Fairtrade certification ensures that you comply with Fairtrade Standards. Changes to Fairtrade Standards may change the requirements of Fairtrade certification. If you wish to be or are already Fairtrade certified, you are required to check the compliance criteria and certification policies on the certification body's website regularly at www.flocert.net.

Change history

Version number	Date of publication	Changes
01.05.2011_v1.0	01.05.2012	<ul style="list-style-type: none"> - Inclusion of products according to the new Central Product Classification. - Reorganization of requirements based on the New Standards Framework.
01.05.2011_v1.1	05.09.2012	Updated orange for juice pricing
01.05.2011_v1.2	13.06.2013	Updated orange for juice pricing
01.05.2011_v1.3	01.05.2014	New payment terms for wine grapes
01.05.2011_v1.4	23.02.2016	Removal of requirement 3.3.1 on supporting workers in bananas at risk of losing their jobs to find alternative employment due to herbicide use.
01.05.2011_v1.5	01.04.2017	Membership restriction to producers with a banana cultivated area of less or equal to 30 hectares.
01.04.2018_v2.0	01.04.2018	<p>Full review:</p> <ul style="list-style-type: none"> - Addition of definition section, simplification of wording, reorganization of requirements, deletion of redundancies, added or improved guidance, new standard design - Revised definition of EXW level - Revised payment terms for EXW and FOB - Introduction of a requirement on payment flexibility - Clarification of pre-finance requirement - Shifting sourcing plans into the contract - Simplification and clarification of contract requirement - Introduction of retro-certification - Reporting of shortfalls in sales - Fine-tuning of quality claims requirements - Extension of requirements on: shortfalls in sales, quality claims, traceability, maximum threshold for SPO members and Premium reporting from bananas to all other fruits
01.04.2018_v2.1	20.12.2018	Possibility to apply for exceptions regarding the maximum land size included for oranges for juice and wine grapes

1. General Requirements

Intent: To provide the necessary framework for effective implementation of the standard.

1.1 Certification

1.1.1 Restriction on size of cultivated land

Already applies to bananas

NEW 2019 for all fresh fruits

Applies to: Producers	
Core	The maximum size of the land where each of your members cultivates Fairtrade fruit is equal to or below 30 hectares.
Year 0	
Guidance: This requirement is in addition to the requirement 1.2.1 of the Small Producer Organizations Standard.	

1.1.2 Exceptions on maximum land size

NEW 2019 for oranges for juice and wine grapes

Applies to: Producers	
Core	In case local legislation, production and processing methods, soil fertility or other product and regional circumstances require a larger cultivation area for the Fairtrade crop, you can apply for an exception to the certification body before including larger members.
Year 0	
Guidance: The organization presents proof that the inclusion of members with more than 30 hectares is necessary, including as a minimum:	
<ul style="list-style-type: none"> - evidence that the average farm of small-scale producers in the region and for the product in question is higher than 30has (e.g. statistics) - evidence that due to lower productivity/production methods a bigger farm size is needed. 	

2. Trade

Intent: To provide maximum benefits to producers, while remaining credible to consumers.

2.1 Traceability

2.1.1 Traceability system

Already applies to bananas

NEW 2019 for all fresh fruits

Applies to: Producers of fresh fruit for export	
Core	You indicate the packing station, date of packing and the identification of the individual member on each box .
Year 0	

2.1.2 Record keeping of volumes for oranges for juice

Applies to: Processors/exporters of oranges for juice	
Core	You keep a record of the volumes of oranges for juice bought and processed from each producer organization including the date of delivery and the quantity of orange juice sold.
Year 0	

3. Production

Intent: To promote additional practices that stimulate sustainable production.

3.1 Environmental protection

3.1.1 Integrated weed management

Applies to: Banana producers and individual members	
Core	If you and / or your members use herbicides in the production process, you implement the following elements of an integrated weed management approach: <ul style="list-style-type: none"> • Gain knowledge of the weeds that affect the productivity of the crop and of the conditions that favour and hamper the development of the weeds • Gain knowledge of the parts of the fields where the crop is affected by the weeds • Prevention of the spreading of the weeds by non-chemical means (labour,
Year 0	

	<p>mechanical or thermic means)</p> <ul style="list-style-type: none"> • Use of alternative control techniques, mulches or cover crops in order to control and reduce the weeds • Application of herbicides focused on areas where the weeds are present and affect the crop • No use of herbicides in canals, in buffer zones protecting rivers or watersheds, in protected or high conservation value areas¹ or in buffer zones intended to protect people’s health
<p>Guidance: It is recommended to rotate active substances.</p>	

4. Business and Development

Intent: To ensure that Fairtrade transactions are carried out under transparent and fair conditions, in a way that lays the foundations for producer empowerment and development.

4.1 Contracts

4.1.1 Fairtrade contracts for payers

Applies to: Fairtrade payers of all fruits, except wine grapes	
Core	In addition to the requirements in the Trader Standard, you include the following in your Fairtrade contracts:
Year 0	<ul style="list-style-type: none"> • Operator’s FLO ID number • Minimum volume to be purchased and delivered on a weekly basis for perennial fruits and on a seasonal basis for seasonal fruits and volume projection for the duration of the contract • Description of how the system of orders will function (when and how weekly/ single orders are confirmed) • Responsible party for product labelling • Rules for dead freight • Non-Fairtrade payment terms and price mechanism in case of short falling sales and quality problems for each product (see 4.5 Sharing risks) • If applicable, a reference to additional or special packing material and services and related costs not included in the Fairtrade Minimum Price (e.g. for “clusterbags” or

¹ See definition of High Conservation Value areas in the Fairtrade Standard for SPO section 3 for Production in biodiversity requirement number 3.2.33.

	“parafilm”, see also 4.2 Price and Fairtrade Premium)
<p>Guidance: This requirement complements the TS requirement 4.1.2 on contracts. For wine grapes, these additional requirements do not apply.</p> <p>If a producer does not sell at the price level at which Fairtrade Minimum Price is defined (e.g. selling on FOB, but FMP is defined at EXW only), the contract must refer to the packing material and related costs and other services (e.g. transportation) not included in the Fairtrade Minimum Price (e.g. for “clusterbags” or “parafilm”).</p>	

4.1.2 Contracts for oranges for juice

Applies to: First buyers of oranges for juice	
Core	You include in your contracts with producers:
Year 0	<ul style="list-style-type: none"> • Price to be paid and calculation used for defining the price of orange juice equivalent. • Clarification that the price for oranges for juice will be defined according to the yield • Once available, the preliminary analysis reports from each delivery of oranges for juice (as an attachment). <p>In addition, you give the preliminary analysis report to the producer 7 days after the delivery of fruit.</p>
<p>Guidance: This requirement complements the requirement 4.1.1 above and the TS requirement 4.1.2 on contracts.</p> <p>A preliminary analysis report is a report produced according to citrus industry standards from a sample of the fruit delivered, which includes yield information.</p>	

4.2 Price and Fairtrade Premium

4.2.1 Payment at EXW and FOB level

Applies to: Fairtrade payers	
Core	You pay producers at EXW or FOB level as defined in the Fairtrade pricing database and applicable in your supply chain.
Year 0	
<p>Guidance: For fresh fruits, and in contrast to the official Incoterms, EXW prices do not include any kind of packing material, unless otherwise specified in the pricing data base.</p> <p>EXW prices for fresh fruit include labour costs for packing (including palletization) and preparation of the fruits for loading on the collecting vehicle (truck or container) only.</p> <p>The costs for standard packing and palletization materials are covered by the exporter. However, the service related to packing (labour costs) of standard packing material is included in the EXW prices and provided by the producer. No further deductions from the EXW price are possible, even if, for example, labelling takes place in the consuming country.</p> <p>FOB prices only apply to producers that export themselves. They do not apply to exporters that buy from Fairtrade producers.</p> <p>At FOB level, banana prices include the costs for the following packing materials:</p> <ul style="list-style-type: none"> • one standard carton box (top, a bottom and a liner) • one banana packing bag per carton box (banavac or polypack) • pallets • edge corners 	

- strips
- up to 3 labels per banana cluster

The FMP in all cases refers to 18,14 kg of ripened fruit. If boxes with different weights are used, FMP and Fairtrade Premium are calculated pro rata. Neither the Ex Works nor the FOB prices include costs for additional or special packing materials such as “clusterbags” or “parafilm” and related services. They must be included in the contract and producers must be paid for those and any associated services (see 4.1.1 Contracts for payers).

4.2.2 **NEW 2018** Payment responsibility of fruits for processing

Applies to: First buyers of fruits for processing

Core	If you buy fruits for processing, you are the Fairtrade payer and therefore pay the Fairtrade price and Premium on the fruits for processing.
Year 0	

Guidance: This means that for example, if pineapples are sold by producers and later in the chain processed into juice, the Premium has to be calculated and paid on the fresh pineapples as sold by the producer organization. The Premium amount cannot be calculated on the juice and paid back to producers based on a conversion rate.

4.2.3 Payment of oranges for juice

Applies to: Processor/exporter of oranges for juice

Core	<p>You pay the producer a price for the equivalent quantity of juice that their oranges produce (FCOJ or NFC, depending on what is sold to the importer) according to the yield in the preliminary analysis report.</p> <p>You pay the Fairtrade Premium for orange juice at FOB level to producer organizations based on the total amount of orange juice you sell.</p>
Year 0	

Guidance: Please refer to the [explanatory document on orange juice pricing](#) available on the Fairtrade website for further explanation.

The Fairtrade Minimum Price for oranges for juice, as defined in the pricing database, refers to oranges for juice delivered at the processor’s premises’. The Fairtrade Premium defined for orange juice at FOB level applies as the Fairtrade Premium for producer organizations selling oranges for juice.

For the oranges for FCOJ pricing, there are three different FMP categories in the pricing database, depending on the type of processor/exporter set-up that processes the oranges for juice of each producer organization. These categories take into consideration the differences in processing facility sizes and export methods which impact the cost of processing/export. The categories are as follows:

- (1) producers working with processors/exporters using bulk export techniques;
- (2) producers working with processors/exporters using 6 extractors or less;
- (3) producers working with all other processor/exporter set-ups.

Producers and processors should define what category applies to their situation in order to understand what FMP applies in their case.

4.2.4 **NEW 2018** Role as payer and conveyor for orange juice

Applies to: Importers of orange juice	
Core	You pay the Fairtrade price and Fairtrade Premium.
Year 0	

4.2.5 Price differential for oranges for juice

Applies to: Conveyors of oranges for juice	
Core	If there is a difference between the FOB price used to calculate the original payment to producers and the FOB orange juice price received when selling the orange juice, you pay the producers the differential.
Year 0	
Guidance: Conveyors make a first payment of the EXW price (% of the FOB price) as indicated in the pricing database and convey the differential if applicable.	

4.2.6 **NEW 2018** Pricing in case of oranges for juice

Applies to: Conveyors of oranges for juice	
Core	You do not make any further deductions from the indicated percentage of the FOB price, whether applied to the FMP or the market price.
Year 0	

4.2.7 Secondary products

Applies to: Fairtrade payers	
Core	For secondary products and /or their derivatives, you pay at least a Fairtrade Premium of 15% in addition to the negotiated price.
Year 0	

4.2.8 **NEW 2018** Payment to individual members

Applies to: Producers	
Core	You transfer the money for Fairtrade fruit sales to the accounts of the members to which the sale corresponds.
Year 0	

4.2.9 Premium reporting

Already applies to bananas

NEW 2019 for all other fresh fruits

Applies to: Producers	
Core	<p>You send a report about Fairtrade Premium use for every new or ongoing Fairtrade Premium project to Fairtrade International. The reporting is done yearly at the latest one month after the general assembly and includes at least the following information:</p> <p>a) Report for projects in planning phase and for ongoing projects</p> <ul style="list-style-type: none"> • Name and description of project (purpose and objectives, project partners) • Target group(s) (e.g. men, women or all members of cooperative, migrant workers, family members, community) • Project progress/status • Estimated number of beneficiaries within each target group and beneficiaries reached to date • Project budget (total / annual), Premium invested to date for ongoing projects • Project start and end date • Date of approval of project and record of who approved it <p>b) Final report for finished projects, in addition to the information under a) above</p> <ul style="list-style-type: none"> • Target group(s) and number of beneficiaries reached • Total budget spent • Evaluation of whether, to what extent and why the purpose and the objectives have been achieved, and what can be learnt from the project • Date of approval of final project report and record of who approved it <p>For bananas, you send this information to bananas@fairtrade.net. For all other fruits, you send this information to freshfruit@fairtrade.net.</p>
Year 1	

4.3 Timely payment

4.3.1 **NEW 2018** Payment terms at EXW level

Applies to: Fairtrade payers (except wine grapes and oranges for juice)	
Core	<p>You pay the price and Fairtrade Premium no later than 15 days after delivery of the product unless national legislation requires shorter payment terms.</p>
Year 0	
Guidance: The time span of 15 days is set on the assumption that producers issue a correct invoice after delivery.	

4.3.2 **NEW 2018** Payment terms at FOB level

Applies to: Fairtrade payers (except wine grapes)	
Core	You pay the applicable price and Fairtrade Premium no later than 15 days after the release of the shipment in the port of destination.
Year 0	
<p>Guidance: "After release" refers to the release of the shipment by the authorities, taking into account the time for possible security scans and other necessary operations in the port of destination. It means that the time period for payment terms only starts when the shipment is at the disposal of the importer.</p> <p>The time span of 15 days is set on the assumption that producers issue a correct invoice after delivery.</p> <p>Where the seller and buyer agree on shorter payment terms, this agreement must be included in the contract.</p>	

4.3.3 **NEW 2018** Payment flexibility

Applies to: Fairtrade payers	
Core	If producers agree, you can make monthly payments (for a calendar month) at the latest 15 days after the end of the respective month.
Year 0	
<p>Guidance: This can be beneficial for producers if they can thus save on transaction costs. It is at the discretion of each producer organization to evaluate this and take a decision.</p>	

4.3.4 Timely payment of price for wine grapes

Applies to: Fairtrade payers of wine grapes	
Core	You pay the applicable price within 6 months of purchase of processed or unprocessed wine grapes from producers, in a frequency that follows the industry norm as defined by the certification body.
Year 0	

4.3.5 **NEW 2018** Timely payment of Premium for wine grapes

Applies to: Fairtrade payers of wine grapes	
Core	You pay the Fairtrade Premium within 60 days of purchase of unprocessed or processed wine grapes from producers.
Year 0	

4.3.6 Timely payment of FMP for oranges for juice

Applies to: Processors/ exporters of oranges for juice	
Core	You pay at least the Fairtrade Minimum Price to the producer no later than 30 days upon receipt of goods.
Year 0	
You convey the Premium and price differential (additional payment in case there is a difference between the Fairtrade Minimum Price and actual FOB orange juice price) to the	

	producer no later than 15 days after receipt of payment from the Fairtrade payer.
--	---

4.4 Access to finance

4.4.1 Pre-financing Fairtrade contracts

Applies to: Fairtrade payers of fresh fruit (except wine grapes)	
Core	Pre-finance is not required for fresh fruits (except wine grapes, see below). If needed, you negotiate pre-finance terms and conditions with the producer and include them in the contract.
Year 0	
Guidance: This requirement replaces the requirement 4.4.1 in the Trader Standard. Pre-finance can be negotiated between both parties, if requested by producers and agreed by the Fairtrade payer or another trader. Pre-finance is granted on contracts e.g. for financing field inputs, packaging material or in case of natural disasters. Advance payments which are granted on individual shipments/invoices are not considered pre-finance.	

4.4.2 Pre-financing Fairtrade contracts for wine grapes

Applies to: Fairtrade payer of wine grapes	
Core	You provide at least 60% of the value of the contract as pre-finance to the producer at least six weeks prior to shipment.
Year 0	

4.5 Sharing risks

4.5.1 **NEW 2018** Information to be included in a quality claim

Applies to: Traders	
Core	To submit a valid quality claim, you include the following information: <ul style="list-style-type: none"> Precise data of the shipment: at minimum the date of loading, name of ship, total Fairtrade volume (number of boxes and kilos), port of destination and, if available, container identification. A description of quality problems including photos documenting the defect, and the extent of a specific quality defect (number of affected boxes per pallet or per container).
Year 0	
Guidance: When you issue a quality claim, you have the burden of proof for the claim. Quality claims that are submitted to the producer after the timelines indicated in this section may be accepted at the discretion of the producer. It must be possible to trace quality problems back to producers. If the fruits from different producer organisations are mixed in one container, it should be possible to trace the quality problem back to individual pallets. If the whole container comes from one single producer, it can be done on a container basis only.	

4.5.2 Quality claims of importers

Applies to: Importers of fresh fruit	
Core	You submit quality claims for any quality problems that you detected yourself, within 2 working days after release of the fruit at the port of destination.
Year 0	

4.5.3 Quality claims of ripeners

Applies to: Ripeners	
Core	You submit quality claims to the seller within 8 working days of receipt of the fruit and no later than 15 calendar days after arrival of the fruit at port of destination.
Year 0	
Guidance: Quality claims from non-certified ripeners can only be acknowledged when forwarded to the seller (exporter/producer) via the certified importer.	

4.5.4 **NEW 2018** Quality claims of other traders

Applies to: Traders	
Core	If you buy products from an importer or another trader, you submit quality claims to the seller within 2 working days of receipt of the product, but not later than 30 calendar days after arrival of the fruit at the port of destination.
Year 0	

4.5.5 **NEW 2018** Transferring quality claims

Applies to: Traders	
Core	When receiving a quality claim, you transfer it to the previous operator in the supply chain within 36 hours (excluding weekends and public holidays), unless you take responsibility for it and handle the claim yourself.
Year 0	

4.5.6 **NEW 2018** Charging costs of quality claims

Applies to: Traders	
Core	If producers accept the responsibility for a quality problem, you charge only the costs of the fruit and the packing (FOB price), the cost of the transport (shipment until port of destination) and the relevant import duties already paid for the affected part of the shipment to producers. These costs must be transparently proven. The date of the loading in the country of origin must be used for the currency conversion rate.
Year 0	

4.5.7 Arranging quality inspection in the country of destination

Applies to: Seller (producer or trader) receiving a quality claim	
Core	Within 2 working days after receiving your buyer’s (or ripener’s) quality claim, you can notify the buyer (or ripener) in writing that you will arrange counter inspection by an authorised surveyor. You pay for and contract this surveyor, unless both parties have agreed otherwise.
Year 0	
Guidance: If you do not react to the quality report within the specified period the buyer (or ripener) may assume that you accept the refusal of the fruit.	

4.5.8 Facilitating quality inspection in the country of destination

Applies to: Buyers issuing a quality claim	
Core	You (buyer and/ or ripener) facilitate the counter quality inspection no later than 5 calendar days after the seller receives the quality claim.
Year 0	

4.5.9 Settlement of disputes through independent surveyors

Applies to: Buyers, ripeners and sellers (producers or traders) involved in quality claims	
Core	You accept the reports of the authorised independent surveyors.
Year 0	
Guidance: The reports are binding to both parties and shall be the ultimate basis of settlement of any dispute over the quality of the fruit between the seller and buyer and/ or ripener.	

4.5.10 **NEW 2018** Risk-sharing due to shortfalls in sales

Applies to: Importers of fresh fruit	
Core	If part of any shipment cannot be sold as Fairtrade as a result of shortfalls in orders from your clients, you may apply “non-Fairtrade conditions” for fruit for up to a maximum of 10% of the volume of each shipment. You assume any financial losses related to shortfalls above this percentage.
Year 0	

4.5.11 Declassifying Fairtrade fruits in case of shortfalls in sales and quality claims

Applies to: Importers of fresh fruit	
Core	<p>You do not sell fruit paid under non-Fairtrade conditions due to shortfalls in sales and quality claims as Fairtrade. You clearly mark the declassified fruit as “non-Fairtrade” on all documentation. In case you cannot remove Fairtrade references, you only use disclaimers that clearly state that the product is sold under non-Fairtrade conditions.</p> <p>You do not sell the declassified fruit to a client (e.g. retailers) dealing with Fairtrade fruits if there is a Fairtrade label on the fruit itself.</p>
Year 0	

4.5.12 **NEW 2018** Trading with integrity in shortfalls in sales

Applies to: Importers of fresh fruit	
Core	<p>There are no indications that you use the practice of shortfalls in sales to supply a Fairtrade operator or a non-Fairtrade operator with fruit labelled as Fairtrade but bought under non-Fairtrade conditions on a regular basis.</p>
Year 0	

4.5.13 **NEW 2018** Informing operators of declassified Fairtrade sales

Applies to: Importers of fresh fruit	
Core	<p>You inform all operators in the supply chain, including the producers, about declassified Fairtrade transactions due to shortfalls in sales and quality claims within six weeks after arrival of the fruit in the port of destination. You explain the reason for the non-Fairtrade sales (quality claim or shortfalls in sales).</p> <p>You get confirmation from the producer that they acknowledge the correct statement of transactions related to quality claims and shortfalls in sales, and the receipt of related payments of Fairtrade price and Premium at least on a quarterly basis in the case of perennial fruits and at least yearly in the case of seasonal fruits.</p>
Year 0	

4.5.14 **NEW 2018** Informing the certification body of declassified Fairtrade sales

Applies to: Importers of fresh fruit	
Core	<p>You inform the certification body of every transaction of non-Fairtrade sales that were originally ordered as Fairtrade within six weeks after arrival of the fruit in the port of destination. In the case of quality claims, you also include the costs related to the claim that were charged back to producers.</p>
Year 0	

4.5.15 NEW 2018 Retro-certification

Applies to: Importers	
Core	You are allowed to retro-certify fruits. Only unlabelled fruit is eligible for retro-certification.
Year 0	You ensure that labelling of retro-certified fruit is only done by a certified operator on behalf of the licensee. You make payments of the Fairtrade Premium and any price adjustments as per the Fresh Fruit Standard.

4.5.16 NEW 2018 Informing producers of retro-certification

Applies to: Importers
